LA NUOVA GENERAZIONE DEL CALORE

CORNER RADIATOR

CORNER RADIATOR

CHARACTERISTICS

- Simple installation, an adequate electrical outlet is sufficient.
- On/Off Switch; Electronic controller.
- No connection to the water mains required.
- No maintenance required.
- High efficiency
- Even heat distribution.
- No pollution.
- CO2 free.

NO HARMFUL ELECTROMAGNETIC EMISSIONS

BODY

The body is made of fire varnished steel, with Carbon Fiber resistors inserted inside. The use of steel allows an extremely reduced thickness for an installation without problems even in small areas, using rooms corners.

CARBON FIBER

Carbon fiber is flexible, does not oxidize, does not produce harmful electromagnetic fields during electricity flow, has no dimensional variations as the temperature changes nor deterioration of ohmic values. No wearing and no maintenance required. Its high resistivity permits significant energy savings.

TEMPERATURE CONTROL

The unit is equipped with an ambient probe and an electronic controller, reacting automatically and maintaining the desired temperatures even following various set points at different hours, to benefit of a comfortable ambiance. (RD09.A.C00).

ACCESSORIES

4 Towel rails made of steel.

COLORS CHART

The manufacturer reserves the right to change the colors and the technical specifications of the products at any time without notice.

202
Bianco opaco ruvido
Matt rough white
RAL 9016

BOB
Verniciato nichel
Nickel varnished
simil | similar to RAL 7002

909
Grigio perlato opaco ruvido
Matt rough pearl grey
simil | similar to RAL 7040

MODEL	POWER SUPPLY	POWER	PROTECTIO DEGREE	INSULATION DEGREE	WEIGHT (kg/lb.)	DIMENSIONS (cm/in)
RD09	230V 50/60Hz	650W	IP54	CLASS I	15/33.07	180/70.87 x 36/14.17 x 12,6/4.96

CONFORMITY

This product is manufactured in conformity with the electrical safety standards set by Low Voltage Directive 2014/35/EU. This product is in conformity with Electromagnetic Compatibility Directive 2014/30/EU, concerning the standards for electromagnetic emissions.
