THE NEW GENERATION OF HEAT

PEGASUS RADIATOR

PEGASUS RADIATOR

CHARACTERISTICS

- Ease of installation, it is sufficient just one electric outlet with adequate supply pressure.
- Electronic controller or On/Off switch.
- Horizontal fan with On/Off switch.
- No connection to the water mains required.
- No maintenance required.
- High efficiency.
- Even heat distribution.
- No pollution.
- No CO₂.

NO HARMFULL ELECTROMAGNETIC EMISSIONS

BODY

The body is made of fire varnished steel, with Carbon Fiber resistors inserted inside. The use of steel allows an extremely reduced thickness despite of the presence of horizontal fan pulling out rapidly the heat from the rear ventilation room.

ACCESSORIES

Towel bar made of steel (PS06A).

CARBON FIBER

Carbon fiber is flexible, does not oxidize, does not produce harmful electromagnetic fields during electricity flow, has no dimensional variations as the temperature changes nor deterioration of ohmic values. No wearing and no maintenance required. Its high resistivity permits significant energy savings

TEMPERATURE CONTROL

The unit is equipped with an ambient probe and an electronic controller, reacting automatically and maintaining the desired temperatures even following various set points at different hours, so to have a comfortable ambiance. The fan permits to spread rapidly and efficiently the heat. The fan can be disabled using the appropriate command on the electronic controller.

COLORS CHART

The manufacturer reserves the right to change the colors and the technical specifications of the products at any time without notice.

2A2
Bianco opaco ruvido
Matt rough white
RAL 9003

1A1
Nero opaco ruvido
Matt rough black
RAL 9005

MODEL	POWER SUPPLY	POWER	PROTECTION DEGREE	INSULATION RATE	WEIGHT (kg/lb)	DIMENSIONS (cm/in)
RD03	230 Vac 50/60 Hz	1000/1250 W	IP67	CLASS I	20/28.66	160/62.99 x 50/19.68 x 5.5/2.16

CONFORMITY

This product is manufactured in conformity with the electrical safety standards set by Low Voltage Directive 2014/35/EU. This product is in conformity with Electromagnetic Compatibility Directive 2014/30/EU, concerning the standards for electromagnetic emissions.
