THE NEW GENERATION OF HEAT

PERSEUS RADIATOR

PERSEUS RADIATOR

CHARACTERISTICS

- Portable radiator, light and easy to transport.
- Simple installation, it is sufficient just one electric outlet with adequate supply pressure.
- On/Off switch.
- No connection to the water mains required.
- No maintenance required.
- High efficiency.
- Even heat distribution.
- No pollution.
- No CO2.

NO HARMFULL ELECTROMAGNETIC EMISSIONS

BODY

The body is made of thin porcelain tiles, inorganic compound that takes a solid shape after baking at a temperature of over 1.250°C. High efficiency regarding heat emissions and thermal inertia, possess heating quality typical for natural products.

CARBON FIBER

Carbon fiber is flexible, does not oxidize, does not produce harmful electromagnetic fields during electricity flow, has no dimensional variations as the temperature changes nor deterioration of ohmic values. No wearing and no maintenance required. Its high resistivity permits significant energy savings.

Sandy brown

MODEL	POWER SUPPLY	POWER	PROTECTION DEGREE	INSULATION RATE	WEIGHT (kg/lb)	DIMENSIONS (cm/in)
GPR1	230 Vac 50/60 Hz	240 W	IP54	CLASS I	6,5/14.33	50/19.68 x 70/27.56 x 13/5.12

CONFORMITY

This product is manufactured in conformity with the electrical safety standards set by Low Voltage Directive 2014/35/EU. This product is in conformity with Electromagnetic Compatibility Directive 2014/30/EU, concerning the standards for electromagnetic emissions.
